

BLANCO ROTAN 400-U

Silgranit soft white

Product code 109707

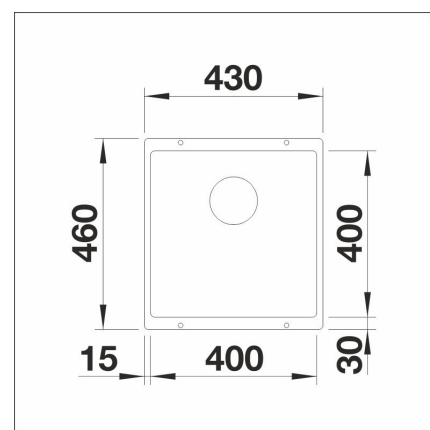

Product description

The BLANCO ROTAN sink family is a selection of sinks of different sizes. The design of the basins is straightforward and timelessly elegant, suitable for both modern and traditional kitchens. The basins are also deep and, thanks to the rounding of the small corner, both practical and easy to clean. ROTAN sink models are available to be attached from below (-U after the product name). Those that can be attached below are installed on the underside of the table top.
