

LAPETEK LAVIN 6-U

PVD light gold

Product code 15558U

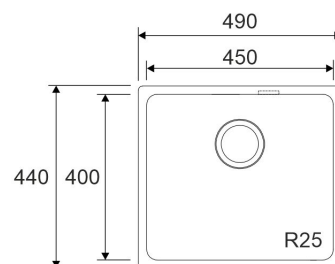

Product description

A very cost-effective and high-quality sink for a 60 cm sink for 60 cm sink cabinet (can also be installed in a 50 cm sink cabinet). The sink is both modern and stylish and particularly spacious due to the small rounding of the corners (R25) and the large sink depth (200mm). The covered overflow completes the look, and in addition, Lavin is easy to install due to its dimensions. The satin gold finish of the Tiva and Liva faucets is a perfect match for the satin gold tone of the Lavin-U basin.
