

LAPETEK DANEX 45-S MINI

Stainless steel 18/10 left

Product code 1663V

Product description

Lapetek Danex kitchen sink family is a range of sinks designed in Finland with modern styling, including the most popular models with a short draining surface and without. The material used is strong stainless steel, and the faucet area has been further strengthened. The sinks feature a consistently stylish low-profile edge.

The generous radius of the sinks ensures ease of maintenance, and the modern design of the draining surface with a clear slope towards the sink and a logo-embellished hidden overflow together create a streamlined appearance.
