

LAPETEK LEVEL-A

anthracite dishwasher valve

Product code 21409A

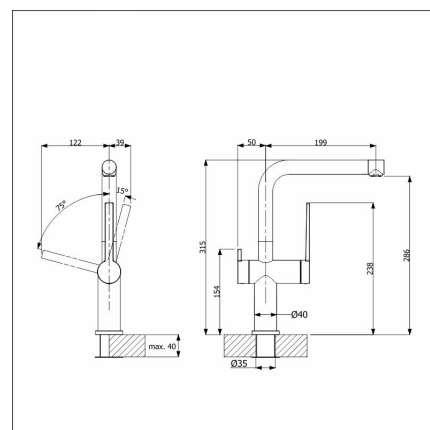

Product description

The modern design of the LAPETEK LEVEL-A faucet series can be seen in every detail, and the faucets blend elegantly into both modern and more traditional kitchens. The smooth-moving high operating lever is not only modern-looking but also very easy to use, and the high spout of the faucet enables effortless washing of even large pots under the faucet. The long supply hoses make installation easier, and the motion limiter prevents water from hitting the outside of the pool.
