

LAPETEK LAVA

bathroom faucet gold

Product code 31635

Product description

The streamlined design of the LAPETEK LAVA faucet series brings modern straightforwardness to the space. The timeless design is designed to last a long time without ever going out of style. The design of the faucet is practical and the clear lines bring straightness to the space. The spout is designed to allow water to flow from the faucet at an angle of 15 degrees, allowing it to be used with large or smaller basins. You can attach the bidet to a faucet later on and they will be exactly the same color up to the wall mount of the bidet.
