

LAPETEK 400-X3

60 cm built-in model DISCONTINUED

Product code 4091**Product description**

No adjustment on the roof installed extractor, only a closing flap which is open/closed, grease filter and lightning. The model is mostly used in block of flats. Fits inside the Lapetek Slim 60 frame. If its mounted separately the hole should be 453 x 298 mm. Max. suction and noise level depends on the efficiency of the roof installed extractor.
