

THIN MOUNTING BRACKET

Product code 4209556

Product description

With the Blanco thin countertop sink bracket, you can install Blanco and Lapetek undermount sinks into countertops of any thickness. The structure of the bracket allows the sink to be installed even in the thinnest countertops. The counterpart of the bracket is glued to the underside of the countertop. After this, the sink is fastened using the included brackets and wing nuts. The package contains 6 brackets, meaning you need one package per sink.
