

JOKER DUO

55 cm built-in white

Product code 431202

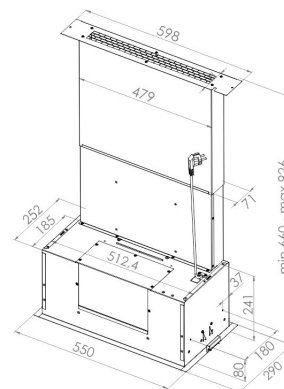

Product description

The Joker Duo cooker hood features a new gesture control system, meaning there is no need to touch the device. A simple hand movement is enough to switch the cooker hood on and off, change the operating mode, and adjust the lighting. This allows you to avoid leaving fingerprints or smudges on the surface of the cooker hood while cooking. If you prefer, you can also use the remote control included with the unit. An ecological, washable Long Life active carbon filter is available as an optional accessory.
