

JOKER DUO

55 cm built-in black

Product code 431203

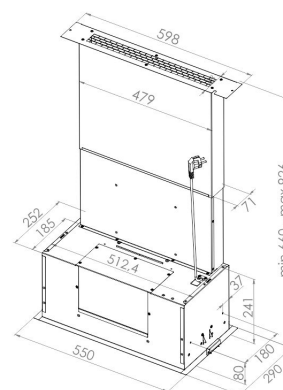

Product description

The Joker Duo cooker hood features a new gesture control system, meaning there is no need to touch the device. A simple hand movement is enough to switch the cooker hood on and off, change the operating mode, and adjust the lighting. This allows you to avoid leaving fingerprints or smudges on the surface of the cooker hood while cooking. If you prefer, you can also use the remote control included with the unit. The kitchen hood also comes with an ecological washable Long Life activated carbon filter.
