

LONG LIFE -CHARCOAL FILTER (Flex Free 54)

Product code 57025

Product description

The kitchen hood can be equipped with activated carbon filters when the device is not connected to the kitchen exhaust duct. In this case, the air cleaned in the range hood returns back to the room.

The usage time of the re-activated and ecological Long Life filter is approximately 36 months. In heavier than normal use the time is shorter and in light use correspondingly longer. In any case, the lifetime is significantly longer compared to disposable filters, which should be changed every 3 to 4 months, depending on use.
