

LAPETEK APOLLO-V X3

island white

Product code 591X3

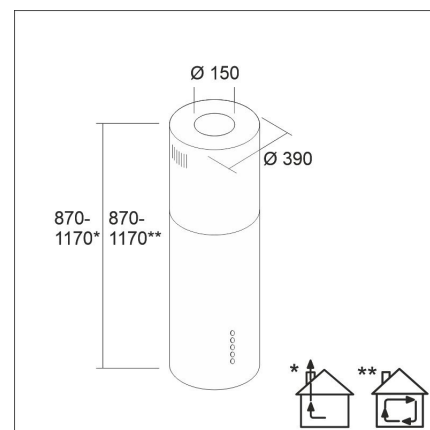

Product description

The high-quality and easy-to-use cooker hood is easy and comfortable to use, but still, stylish and suitable for the kitchen as a part of the interior. The new LAPETEK APOLLO-V-X is a timelessly elegant rooftop ventilation fan. You can choose a model that drives a traditional alternating current (AC) or a newer energy-efficient direct current (EC) motor. The suction area that goes around the entire lower part and the perimetric suction technology together improve the collection of steam. The color options are white, stainless steel and black.

The round shape...
