porcelain white 400x400x835 mm

Product code 8262

Product description

A vessel washbasin is an elegant addition to bathroom spaces. The basin-shaped washbasin stands out from traditional washbasin. It is installed on top of the countertop; the faucet can be installed either next to or behind the washbasin. Additionally, a vessel washbasin can save counter space when needed. The smallest vessel washbasins can fit even in compact bathrooms, starting from a countertop depth of 23 cm. The product is delivered without a drain and P-trap. The washbasin model does not include an overflow protection.
