An extremely low and efficient profile fixture

IMENTE PROFIL is a part of LIMENTE collection. The LIMENTE collection provides the best quality of light in technical features, such as efficiency and color rendering, and maximizes the lifespan of the product. PROFIL is a simple and cost-efficient choice to light up your kitchen! The led profile is available in five different standard lengths. The fixture has an IP44 classification, which makes it possible to be installed under a drying cabinet. Due to the excellent light output, the profile fixtures can be placed even 60-80cm apart! You'll receive excellent light on your cooktop, when the fixtures are placed on both sides of the cooker hood.

LIMENTE PROFIL has a perfect color rendering (Ra>90). The fixture has a light output of 1100 lm/m and a color temperature of 4000K. Due to the excellent technical values, our LUX models reproduce natural colors optimally, which really makes colors come alive! The products in our LIMENTE PROFIL collection are all granted with a three-year additional warranty in addition to our two-year warranty granted for all our products.
