white | dimmable | 12 W | 1100 lm | CRI>90

Product code: 62724

An efficient and low panel light fixture

The low and unobtrusive recessed LIMENTE panel light fixture provides a smooth, spotless light. LIMENTE DSI DIM has a very low installation height and therefore the fixture can be installed into every type of suspended ceiling. In addition to the height of the light fixture, the space required by the power supply needs to be taken into consideration in the height of the mounting space (see measurements). The recessed model is also available in round form (LIMENTE DRI). LIMENTE DSI DIM has an IP44 classification, which makes it suitable to use in humid conditions, as well as in any dry space.

LIMENTE panel lights have the same color temperature as all other LIMENTE lights making it easy to combine different types of light fixtures. Combine LED profile fixtures with different types of ceiling light fixtures (pendants or panels) to create your own unique, pleasant and unified lighting design.

Dimming and lighting control

Appropriate lighting for any occasion is made easy with our dimming and lighting control system. You can easily change the lighting and ambience in your home from efficient and bright to dim and cosy by dimming your LIMENTE DSI DIM with our wireless system. You can use the same switch to adjust all the LIMENTE lights in the room, including various ceiling, panel and profile lights. The light adjusts smoothly at the same time while creating ambience for working, entertaining or any mood in between.
