

PROFIL IR-DIM

aluminium | 4000 K | 997 lm

Product code: 62753

An extremely low and efficient profile fixture with an IR switch

LIMENTE PROFIL IR-DIM is a part of LIMENTE collection. The LIMENTE collection provides the best quality of light in technical features, such as efficiency and color rendering, and maximizes the lifespan of the product. PROFIL IR-DIM is a simple and cost-efficient choice to light up your kitchen! The led profile is available in five different standard lengths. The fixture has an IP44 classification, which makes it possible to be installed under a drying cabinet. Due to the excellent light output, the profile fixtures can be placed even 60-80cm apart! You'll receive excellent light on your cooktop, when the fixtures are placed on both sides of the cooker hood.

LIMENTE PROFIL IR-DIM has a perfect color rendering ($R_a > 90$). The fixture has a light output of 1100 lm/m and a color temperature of 4000K. Due to the excellent technical values, our LUX models reproduce natural colors optimally, which really makes colors come alive! The products in our LIMENTE PROFIL IR-DIM collection are all granted with a three-year additional warranty in addition to our two-year warranty granted for all our products.

Dimming and lighting control

LIMENTE PROFIL IR-DIM is not dimmable with separate dimmers. The fixture has an integrated on/off switch and dimmer. The on/off switch is activated with a wave of a hand. For dimming, hold your hand over the sensor to adjust the brightness between 100% and 5%. Please note that the lights will always turn on at full 100% brightness.
