A versatile LED strip with color temperature adjustment

LIMENTE RIBBON IP44 CCT LUX is a part of LIMENTE CCT collection, which is not only dimmable but the color temperature is adjustable. When adjusting the color temperature of lighting in your home, you can change the ambience to suit any mood. RIBBON IP44 CCT LUX is an efficient led strip with LEDs very close to each other (196 LEDs / m). You can use RIBBON either in a kitchen as working light or as indirect light behind mirrors, in plinths, in ceilings, and in any space, where the light source needs to be as invisible as possible. The light is stylish and continuous as well as pleasantly even especially when installed on LIMENTE LIGHT PROFILE.

LIMENTE RIBBON IP44 CCT LUX is available in standard lengths of 2 and 4 meters. The led strip can be shortened to a desired length at 6,6 cm intervals. LIMENTE RIBBON IP44 CCT LUX comes with quality LEDs with a color rendering index of Ra> 90, an efficiency of 105 lm/W, a luminosity of 683 - 1505 lm/m and a color temperature of about 2700-6000K. The fixture includes a matte protective glass diffuser, which makes the light even and continuous and makes the light a bit warmer in color temperature. All technical values are given to the led strip without a diffuser.

Dimming and lighting control

Appropriate lighting for any occasion is made easy with our dimming and lighting control system. You can easily change the lighting and ambience in your home from efficient and bright to dim and cozy by dimming your LIMENTE RIBBON IP44 CCT LUX with our wireless system. You can use the same switch to adjust all the LIMENTE CCT lights in the room. The light and color temperature adjust smoothly at the same time while creating ambience for working, entertaining or any mood in between.
