

LUXA-31 (3-IN-1)

socket | black | integrated 24 V driver with switch

Product code: 631229

A double power socket with a controllable 24 V LED driver

LIMENTE LUXA-2 is designed for kitchen workspaces. The power socket can also be used to control the lighting in the kitchen workspace! LIMENTE LUXA-2 is quick and easy to install, and due to its design, the socket suits every type of lighting. The power socket has an oblique design, which makes it easy to use. You are always able to clearly see the angle in which plugs are to be connected in the sockets. This way the sockets are always on hand and available! LUXA power sockets always have double sockets and an ON/OFF switch for a separate connector. Use the switch to control the lighting in your kitchen workspace, for example! Combine LIMENTE LUXA with any LIMENTE lighting sets and create a stylish lighting design, which you are able to control from the switch integrated in LUXA power socket. All power sockets are made of metal either in stainless steel or white and are child proof. LIMENTE LUXA is a simple way to change your traditional, fluorescent lighting into a modern lighting without heavy electrical work. Install LIMENTE LUXA in the same place where the fluorescent light fixture used to be. LIMENTE LUXA has two sockets, which replace the sockets in the fluorescent light fixture. Connect any LIMENTE lighting set to the separate connector, and use the switch to control your new and improved kitchen lighting!

Color choices

LIMENTE LUXA-2 is available in three different colors: stainless steel, white (RAL9003), and black (RAL9004).

Installation

Determine the place, where the power supply will be imported, or use an existing power supply cable. The socket must be installed in a corner ensuring the back sides of the socket do not remain open to exposure. The mounting takes place with the supplied screws. Please see further instructions in the installation guide.
