

DESK-2 USB

socket + USB (A+C) | copper

Product code: 631768

Slim recessed socket

The DESK-2 and DESK-2 USB are extremely low power designed to be installed on tabletops, shelves and other furniture. Due to its small and low design DESK-2 and DESK-2 USB can also be used in separate, loose furniture, such as tables, couches or bookshelves. The power socket includes two dustcovers to cover the sockets, which makes the table top even when the power socket is not in use. DESK-2 and DESK-2 USB has a classification of IP54 and can be used in humid conditions.

The DESK-2 has two sockets and DESK-2 USB one socket and two USB (A+C) connectors. You can either use the sockets separately or at the same time. When only one of them is in use, the other is covered from crumbs and litter. When not in use, DESK-2 is flat and even, making the tabletop appear even and solid.

Color options

DESK-2 and DESK-2 USB are made of metal and available in several different colors: stainless steel, black, white, bronze, brushed gold, tin, champagne and copper.

Installation

The DESK-2 and DESK-2 USB are quick and easy to install.
