

DUOLITE

socket | black

Product code: 631799

Slim recessed socket

The DUOLITE is an extremely low power designed to be installed on tabletops, shelves and other furniture. Due to its small and low design DUOLITE can also be used in separate, loose furniture, such as tables, couches or bookshelves.

The DUOLITE has two sockets. You can either use the sockets separately or at the same time. When only one of them is in use, the other is covered from crumbs and litter. When closed, the surface of the DUOLITE socket rises only 5 mm from the level. When not in use, DUOLITE is flat and even, making the tabletop appear even and solid. DUOLITE has a classification of IP54 and can be used in humid conditions.

Color options

DUOLITE is made of plastic and is available in black and white.

Installation

DUOLITE is quick and easy to install.
