

SMART 596

GREENLINE lightcontrol set | 240 V | white

Product code: 640596

Wireless light control set – 240V –for ceiling lights

LIMENTE SMART GREENLINE series offer you a simple and stylish solution for light control, for example in the kitchen and other areas of the home. The lights are controlled by a stylish wall switch (dimmer) with an on / off dimming feature and you can also adjust the color temperature of the light (if you have purchased CCT light version). The controllers in the GREENLINE series do not need electricity to operate, but the movement of the switch button produces the required energy.

The controller does not need wiring but works wirelessly, so it can also be placed freely in the desired place in the room. There can be several controls to control the same lights, and with one controller you can control several different lights, making it easy to expand the system afterwards. Lighting control does not require separate electrical installations, only an electrical outlet. LIMENTE SMART 596 and 597 are ready-made sets with all the necessary parts to control the ceiling lights.

Adjusting the lights

By adjusting the lights, you can always customize the lighting and create the right lighting for your home. By dimming the LIMENTE lights, you change the lighting in your home from efficient and bright to dim and cozy. If you wish, you can use the same switch to adjust all the LIMENTE lights in the room, including the various ceiling, panel and working lights. The lights adjust evenly, smoothly and simultaneously, changing the atmosphere of the entire space at once. With the LIMENTE SMART dimmer, you can continuously adjust the light output of the LIMENTE LED lights from 0 to 100%.
