

LUMME-280

black | (E27 | max 40W)

Product code: 65091

Lumme- pendant light – timeless elegance and charming design

Lumme- pendant light captivates with its soft lines and elegantly low-profile design. Its refined brass details bring a touch of warmth and luxury, making the lamp a timeless eye-catcher, for example, above a dining table. Available in two stylish colors – beautiful matte white and deep black. The beautiful timeless design with stylish details makes the lamp suitable for both modern and classic interiors.

The lamp is available in two different sizes, so you can choose the option that suits the space or combine different sizes to create a striking ensemble. The lamp's gleaming white inner surface reflects light efficiently and spreads soft, pleasant illumination around it. The textile-covered cord is color-matched to the ceiling canopy, completing the elegant whole.

Bulb, dimming and lighting control

If you wish to adjust the lighting, you must ensure that the separately purchased bulb and the dimmer used are compatible with each other. The pendant lamp does not impose any restrictions on lighting adjustment.

Installation

Installation is quick and easy. The package includes the lamp, a lamp plug, a ceiling canopy with an integrated power supply. The cord can be shortened to the desired length during installation or neatly gathered inside the canopy. The lamp is hung by attaching the hanging ring to the hook on the base, after which the plug is connected to the socket on the lamp cover and the ceiling canopy is attached in place.
