PROFILE LINEA

without led-strip | black 2,0 m + 1,0 m
Product code: 682306

Black profile for LED strips

LIMENTE PROFILE LINEA is designed for installing LIMENTE RIBBON led strip. You can use the profile to install the led strip in a kitchen workspace or in a utility room. The profile has a standard length of 2 meters and can be shortened to a desired length using a hacksaw or a circular saw. When the profile is cut to a proper length, simply install the led strip inside. The shorter, additional profile (included in delivery) can either be used for the power supply cable of the led strip or as a profile. Put the finishing touches to your lighting design with our 90-degree corner pieces and our end pieces!

LINEA profile is easy to install. Use LINEA profile for a smooth installation and extend the lifetime of the led strip. Take your pick from the several different options of LIMENTE RIBBON (available in different lengths, different technical values and IP classifications) to suit your personal lighting design. N.B.! The led strip and power supply must be ordered separately.

Dimming and lighting control

Combine any LIMENTE RIBBON led strip with either LIMENTE SMART CLASSIC, LUXUS and GREENLINE series wireless dimming and lighting control system. With our SMART systems, you can easily change the lighting and ambience in your home from efficient and bright to dim and cozy with just a push of a button.
