

LINEA 20

12 V | 4000 K | aluminium | 120 led/m | 1080 lm/m | CRI>80

Product code: 682312

Light profile with uniform light

LIMENTE LINEA is a versatile work- and mood light that can be used under the kitchen cabinets, but also as an indirect light on top of cabinets, behind mirrors, in plinths, in ceilings etc. The light is stylishly continuous with no interrupting connection points, so that a uniform profile provides even light throughout the area. The power supply cable at both ends of the lamp enables the use of LINEA as two separate luminaires. LINEA can also be used in its full length (2 m or 4 m), whereby the power cord of the other end is cut off. tape can be shortened at 3,3 cm intervals to the desired length, allowing different individual solutions. A range of accessories, such as corner pieces, gives the installation stylish look.

LINEA has 2- or 4-meter-long rails with all the needed accessories (corner-, end- and extension parts and clips), light strip and 100 cm profile for the power supply cable. NOTE! The power supply must be ordered separately. The light strip can be used in its full length, whereby the power cord of the other end is cut off. The power supply cord at both ends of the luminaire allows the light to be used as two separate lights.

Dimming and lighting control

By adjusting the lights, it is easy to create appropriate lighting for different occasions. By dimming LIMENTE LINEA you can change your home's lighting from efficient and bright to dim and cosy. You can use the same switch to adjust all the LIMENTE lights in the room, including various ceiling-, panel- and profile lights. The lamps adjust smoothly at the same time, while simultaneously changing the ambience of the space.
