

LILA DOB

2m | 4000 K | aluminum | 288 led/m | 1300 lm/m | CRI>80
Product code: 682435

A versatile recessed profile fixture with completely dot-free LED strip

LIMENTE LILA DOB is a profile fixture for indirect lighting, which is especially pleasant when planning on illuminating via another surface. The fixture can be used e.g. in closets, when wanting to direct light toward the back wall of the closet. LILA is a recessed profile fixture, which is submerged into a surface. The profile is very small in size and, unlike other LIMENTE-profiles, LILA and LED-LILO use an 8mm led strip. LILA DOB is a versatile fixture for working light and mood light. The fixture can be shortened to a desired length. The light is stylish and continuous with no connection points interrupting the light, which provides even light throughout the area. The new DOB technology provides a completely dot-free light, which can be used in a profile even without a diffuser if desired.

See "Installation pictures" for tips on how to use LILA in a kitchen workspace but also to provide indirect lighting when placed above upper cabinets or inside a wardrobe! LIMENTE LILA DOB is available in two different color temperatures (3000K and 4000K). The profile itself has a standard length of 2m and can be shortened to a desired length.

Dimming and lighting control

A stepless dimmer makes it easy to create atmosphere and a new look for a space. By dimming LIMENTE lights, you can change your home's lighting from bright and efficient to dim and cozy. If you wish, you can use the same dimmer to control all LIMENTE lights in the room, including various ceiling, panel, and under-cabinet lights. The lights dim smoothly and pleasantly, changing the feel of the entire space.
