

PROFILE INSER

without led-strip | aluminium 2,0 m

Product code: 68901

Aluminum profile for LED strips

LIMENTE PROFILE INSER is an aluminum profile designed to be recessed in furniture. The profile is submerged to furniture level and only a sleek thin edge of the profile is visible. The profile can be used to design both a working light and a mood light, e.g. in a kitchen workspace or on shelves and other surfaces where light is needed! The profile is only 8.5 mm deep allowing installation on a sheeted wall without a need to change the wall support structures. The diffuser in LIMENTE PROFILE INSER is slightly arched, whereas LIMENTE PROFILE INSER MINI has a straight diffuser.

The profile has a standard length of 2 meters and can be shortened to a desired length using a hacksaw or a circular saw. When the profile is cut to a proper length, simply install the led strip inside. End pieces are included in delivery.

Dimming and lighting control

Combine any LIMENTE RIBBON led strip with either LIMENTE SMART CLASSIC, LUXUS and GREENLINE series wireless dimming and lighting control system. With our SMART systems, you can easily change the lighting and ambience in your home from efficient and bright to dim and cozy with just a push of a button.

Installation

LIMENTE profiles are cut to a desired length using a hacksaw or a circular saw and an installation trail for the profile is carved into the place of installment. Afterwards, the profile is glued in place.

THE FOLLOWING ITEMS ARE INCLUDED

- aluminium profile 2m
- diffuser 2m (cover)
- end-caps x 4
