# ALUPROFILE LILO

without led-strip | aluminium 2,0 m
Product code: 68913

### Aluminum profile for LED strips

LIMENTE PROFILE LILO is designed for installing LIMENTE RIBBON led strip. LIMENTE LILO is designed to be used as indirect lighting and is especially pleasant when planning on illuminating via another surface. The fixture can be used e.g. in closets, when wanting to direct light toward the back wall of the closet. The profile is very small in size and, unlike other LIMENTE profiles, LILA and LILO use an 8mm led strip.

The profile has a standard length of 2 meters and can be shortened to a desired length using a hacksaw or a circular saw. When the profile is cut to a proper length, simply install the led strip inside. The profile is available in black and white. Installation tools and attachment brackets as well as end pieces are included.

### Dimming and lighting control

Combine any LIMENTE RIBBON led strip with either LIMENTE SMART CLASSIC, LUXUS and GREENLINE series wireless dimming and lighting control system. With our SMART systems, you can easily change the lighting and ambience in your home from efficient and bright to dim and cozy with just a push of a button.
