

PROFILE SAUNA

without led-strip | aluminum 5 x 1,0 m

Product code: 68992

Sauna profile for SAUNA-LED and SAUNA-NEON strips

The Sauna profile is designed for the installation of Sauna LED and Sauna-NEON light strips. It allows you to encase the strip and install it in sauna or bathroom spaces. The length of a single aluminum profile is 1m, and it can be cut to the desired length with a hacksaw or a circular saw, after which the LED strip is installed inside the profile. The Sauna profile is available in an aluminum finish. Installation is easy: simply drill holes in the profile and secure it with screws.

Dimming and lightcontrol

The power supply for the SAUNA-LED and SAUNA-NEON strips must be connected to a fixed switch, allowing the lights to be turned on and off. NOTE! The power supply for the SAUNA-LED and SAUNA-NEON strips is non-dimmable.

Installation

The Sauna profile is cut to the desired length using a hacksaw or a circular saw and secured with screws, for which holes must be drilled first.

THE FOLLOWING ITEMS ARE INCLUDED

- aluminum profiles 5 x 1m
- diffuser 5 x 1m (cover)
- mounting clips screws 4 pcs
- end-caps 4 pcs
