### Complete light set for kitchen workspace

The LIMENTE workspace light set is a versatile, shortenable light solution that can be used to create work and mood light and it is great for example as an indirect light on top of the cabinet, in recesses, plinths, ceilings, etc. in addition to kitchen work lighting. In the kitchen workspace, the profile is placed close to the front edge of the bottom of the top cabinet. See the installation pictures for tips on how the profile can be placed in the kitchen as a working light, on top of the kitchen cabinet as indirect light or how it can be used as an indirect light for the ceiling, for example. The kitchen workspace set is available in two different lengths, 2 m and 4 m, with and without light control.

The length of the LED strip is 2 or 4 m and can be shortened to the desired length at approximately 3.3 cm intervals, that makes it suitable for various different spaces. The included cable profiles and corner pieces make it easy to elegantly hide the supply cables. The luminaire uses high-quality LEDs with a color rendering index  $R_a > 85$ , an efficiency of 126 lm / W, a light output of 1512 lm / m and a color temperature of about 3000K or 4000K (there may be slight differences in color temperature from production batch). In addition to the profile, the luminaire has a matte cover (diffuser), which makes the light spotless and at the same time turns the light into a slightly warmer shade. All lighting values are given on the LED strip without cover.

### Dimming and light control

By adjusting the lighting, you can customize the lighting and create lighting that suits your home and the current situation. The stepless dimmer makes it easy to create a different mood and a new look in the space. By dimming the LIMENTE luminaires, you change the lighting in your home from efficient and bright to dim and cozy. If you wish, you can use the same control to adjust all the LIMENTE luminaires in the room, including the different ceiling, panel and work luminaires. The luminaires adjust evenly and smoothly, changing the mood of the entire space.
