

PLINTH SET PROLITE 5M

500 lm/m | 4000 K | aluminum |
Product code: 96509

Complete light set for plinth lighting

The LIMENTE plinth lighting set is a pre-designed and easy-to-install lighting solution that creates elegant indirect light via the floor while keeping the luminaire itself out of sight. The light output is optimized for plinth lighting, providing pleasant and glare-free illumination. Depending on the space and flooring material, you can choose between 3000 K warm white or 4000 K pure white light. Thanks to the corner connectors, the lighting can be continued seamlessly around corners, and the set includes all the required components for creating a refined plinth lighting installation.

The length of the LED strip is 3 or 5 m and can be shortened to the desired length at approximately 6 cm intervals, that makes it suitable for various different spaces. 3 and 5 meter LED-strips both ends of the strip have a standard 3 cm + 200 cm long cord with quick connector. If this is not enough, you can order an extension cord (3 m), item number 681588. Extension cables can be connected up to 1 pcs / light fixture, allowing a cable length of up to 5m. At both ends, the current power supply cable makes it possible to use the LED-strip in two parts. This avoids unnecessary waste and allows the tape to be installed from the power supply in two directions. In addition to this, it is also possible to extend the LED strip with separate LED strip extension connectors, so that one for example 5m LED strip can be used in several smaller sections.

Dimming and light control

By adjusting the lighting, you can customize the lighting and create lighting that suits your home and the current situation. The stepless dimmer makes it easy to create a different mood and a new look in the space. By dimming the LIMENTE luminaires, you change the lighting in your home from efficient and bright to dim and cozy. If you wish, you can use the same control to adjust all the LIMENTE luminaires in the room, including the different ceiling, panel and work luminaires. The luminaires adjust evenly and smoothly, changing the mood of the entire space.
